

Your accessible Visa Debit card

Your new debit card has arrived

Your Visa Debit card is a handy way to pay whether you're popping down to the shops or travelling abroad. Use your Visa Debit card at over 29 million retail outlets and a million cash machines worldwide – there may be charges to use it abroad.

We're here to help

The features of your card will make things easier if you have a variety of different impairments, or if you're using the card in poor lighting conditions. Your card may look and feel different, but it works just like your old card and is just as secure.

Your card has three unique features

- A series of raised dots so you'll know it's your Royal Bank of Scotland Visa Debit card.
- A carved out notch on the side of the card, so you can work out which way to insert your card into a cash machine or card reader.
- Flat print (unembossed) design including a large font telephone number on the back of the card that will be easier for you to read.

How to use your card

To insert your card into a cash machine or card reader, make sure you're holding the card with the number and raised dots facing up, and the carved notch nearest you.

How your card works

Your card helps you budget by ensuring every transaction is checked with the bank before it is agreed.

Please note, this means your card cannot be used at merchants who are unable to connect to the bank's systems for these checks. Most merchants can, but examples of those who cannot include unattended petrol pumps and some card readers on trains, ships or planes.

This also means your card is not compatible with the technology needed to make contactless payments.
